About Us

With a strong background in Polypropylene Extrusion Technologies and associated production line, we have a dedicated team of Quality, Innovation and Research and Development Wing responsible for New Developments and Maintaining Quality across all our our despatches. One of our Corner stones of Success is to be able to offer the Customer, the Same Consistency of Product over and again trying to better our own standards of Quality, Delivery service.

Ever since our establishment in the year 1995, we have won the satisfaction of our clients in the domestic market. Having set a strong foothold in early 2000, we now export to more than 45 countries globally and have been achieving a GAGR of Approx 15 % Year on Year.

We are also certified supplies by CIBIL thru alibaba e-commerce and member of FKCCI, AIFTMA, PLEX COUNCIL and other trade bodies.

Vision

The ethos of our organization is based on achieving the greatest level of customer satisfaction by offering our various products to meet the requirements of our clients across different verticals of Cables, Geo Textiles, Webbing, Packaging Industries etc.

Kalyani Polymers has developed a in depth understanding of trends and requirements, and in accordance developed unique technologies and manufacturing to best meet our customers' continually developing needs. Having .Accredited with ISO 9001 from TUV since 2008, Quality ,Service and Innovation have been our Pillars of Development and We believe in "Ultimate Customer Satisfaction " as our cornerstone in all our activities and businesses and thus offer value for money and quality products and competitive prices, and also Proudly can as say that we are in the top Three of the Worlds largest manufacturers of Colour Id Tapes for Copper Communication Cables .

"A Customer is the most important visitor in our premises.

He is not dependent on us. We are dependent on him. He is not an interruption in our work. He is the purpose of it. He is not an outsider in our business. He is part of it. We are not doing him a favor by serving him. He is doing us a favor by giving us an opportunity to do so."

- Mahatma Gandhi

Infrastructure

We are aptly situated in Bangalore on the south side on Kanakapura Road which is well located to major Ports and other Metro Cities and operate out of 3 units covering a complete area of 15000 sq meters.

We operate 24 hours a day in 3 Shifts across all our units and seamless integrated via ERP systems for Smooth SCM and Production Planning.

Our ability to continuously expand our production range and apply new techniques to present systems by installing new machines for efficient manufacturing is aided by the ample space to innovate and commercialise new products once every 6 months.

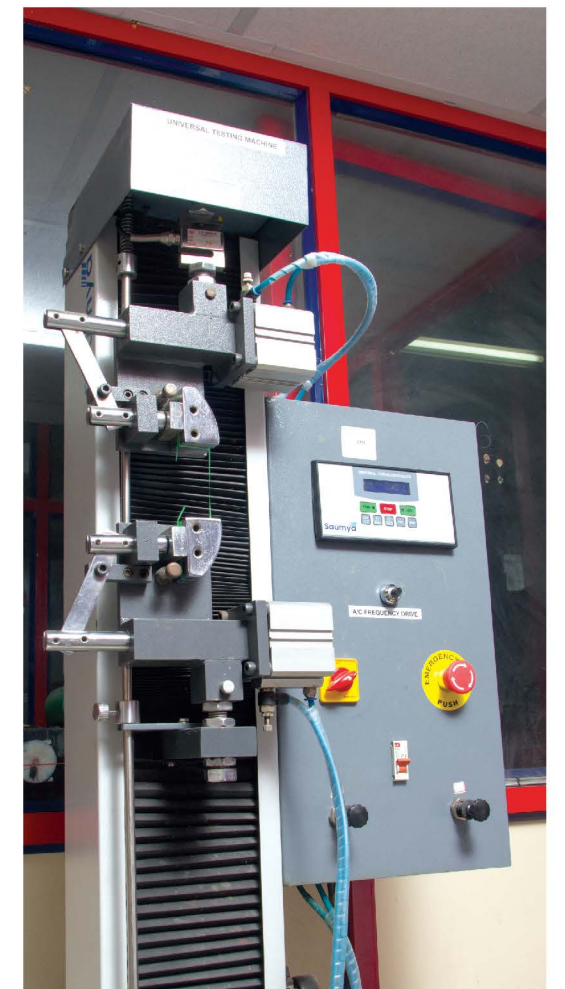

Quality Control and R&D

Our Quality Control Wing is equipped with the latest machines for product testing and Control. We have 24 hour loop system of online Testing and is of paramount importance in our production systems for optimum quality of our products, We are equipped with multiple hydraulic jaw UTM'S, Shrinkage tester and state of the art textile testing system.

On the Research and Development side – we believe Change is the only Constant and hence continuously innovate on new products and alternatives for the market and also on developing new ways to replace archaic systems of production to Cut costs and Improve Quality.

We have also been approved for procurement by CACT of BSNL – The Indian Telephony Company as the verified supplier of Tapes , Yarns and Cords for Cables, and also work closely with CIPET, ITU and Indian Institute of Packaging.

Product Range

CABLES

(Power, Communication, Instrumentation)

Cables: We provide Polyprpylene Tapes and Yarns Solutions for Power, Telecom Copper and Optic Fiber and Instrumentation Cables Manufacturing - Also Cable Fillers with Flame Retardant Grades have been developed for Special Needs.

YARNS

(Geo Textiles / Filter Fabrics)

Yarns: Polypropylene Fibrillated – Heat Set and Twisted Yarns find a broad range of applications from Geo Textiles , Webbing , Elastics , Filter fabrics carpet backing etc and all our Yarns are customised for each specific application .

FIBRES

(Construction & Reinforcement)

Fibres: Our range of Fibercrete Fibers for Construction Industry is made from 100% Polypropylene HomoPolymers and is a very cost effective solution in reducing Shrinkage issues etc while Curing of Concrete and Ready Mix Concrete Applications as well

SPECIALITY YARN

(Carpet Backing Zero Shrinkages Yarn)

Speciality Yarns: A range of Polyamide and Aramid yarns along with Polyolefin yarns are offered with Different Winding Systems and Packages to cater to specialised requirements viz. Carpet Backing , Artificial Turf Yarns and Zero Shrinkage Yarns for a host of applications.

PACKAGING

(Agri Packaging Sacks)

Packaging: We offer Leno Bags used in Packing of Agri Produce in a variety of Colours and sizes suited for Packing and Transporting Fruits , Vegetables and Flowers and helps SCM in reducing wastage due to Non Hygroscpic property of the Bags and avoids Moisture accumulation which in turn help keep the fresh produce from getting rotten.
