# FEC International

Hydraulic components for mobile and construction equipment

## Complete Source of Power Transmission Products

- Wide range of planetary final drives
- Full range of hydraulic pump and motor products
- Complete offering of hose and fittings, hydraulic brakes and accessories

## Global Presence

- Network of international associate distributors
- Offices located conveniently throughout the world to meet market needs
- Technical and sales support at all locations
- Expertise in handling export shipments
- Inventory available to meet your urgent needs

## Accumulator, Surge and Pulsation Control Experts

- Bladder, piston and diaphragm accumulators
- Globally recognized source of custom products
- Variety of materials of construction and certifications (ASME, CE, SQL, CRN)

## Authorized Distributor of World-Class Products

- Choice of many manufacturers to represent their products throughout the world
- Preferred partner of original equipment manufactures and system designers
- Professional trained and skilled staff ready to service your needs

## Lubrication Systems and High Pressure Work Handling Equipment

- Centralized automatic lubrication systems
- Full range of lubrication, clamping and lifting products
- Portable lifting/jacking products
