# SAPPHIRE

- Founded in 2012, the company has been a manufacturer of quality Welded Wiremesh in South India. With an installed capacity of 6000 metric ton our brand **BLUE DIAMOND** has created a niche in the field of manufacturing of Welded Wiremesh through its quality and customer service in a short span of time

# OUR COMPANY

- Through its team of dedicated work force ,the company has since maintained its leadership in the industry. The unit is spread over a built up area of 25,000 sq.ft. in a 2 .5 acre plot. It has 3 fully automated and sophisticated plants for manufacturing Welded Wiremesh with highest quality, accuracy and with the widest range. It is also equipped with latest machines for making fine quality MS wire for its weldmesh. The name **Sapphire** is synonymous for quality and customer satisfaction. It has a large network of Customers & Dealers with whom the company has very long standing relationships.

# OUR PRODUCT WELDMESH

- Welded **WIREFABRIC** or **WELDMESH** is manufactured on our Fully Automatic Electronic Welder by Electric Resistance Welding. A series of parallel longitudinal wires with required spacing are welded with cross wires at the intersection points as per required spacing. All the spacing between wires are controlled by an automatic programmed mechanism of highest reliability. With a capacity to manufacture from 1.3mm thick to 10mm thick wires with spacing from 15mm to 200mm and with upto 2.5mts we have manufacturing capacity of about 300 tones a month. Our product range of Weldmesh is with GI , SS and MS wires.
