We started our business operations with 32 products and are now consistently engaged in expanding our business operations. All our products are stringently tested in order to ensure the quality and reliability of these products at the customer’s end. Our company has been promoted by a team of expert and dynamic technocrats, who possess 25 years of valuable experience in manufacturing and an in-depth process knowledge. Working in close coordination with our R&D department, our quality development professionals consistently strive hard to improvise our product range. Equipped with CAD technology and sophisticated machines, we have been able to deliver a world class product range to our valued customers spread across the country.

Working under the excellent guidance of our mentor, **Mr. S. Rama Samy**, we have been engaged in serving our customers in the best possible manner. All our business operations are successfully headed by our mentor, who has rich experience in this industry. His constant support and motivation to our team members have helped them work with dedication and thus have gained us remarkable success.
