

Clindiag, India

www.indiamart.com/clindiag

We are a leading supplier of all types of Medical Diagnostic, Hospital Supplies and Medical Equipment. These are known for features like high efficiency, accurate reading, easy operation and less maintenance.

A b o u t U s

Established in the year 1990, at Delhi, India, we, “**Clindiag, India**”, are a well-known **supplier**, engaged in offering a quality range of **Medical Diagnostic, Hospital Supplies and Medical Equipment**. These also include **FA 200 Fully Automatic Biochemistry Analyzer, Microplate Instrument, Automatic Biochemistry Programme Microplate Reader, Erythrocyte Sedimentation Rate Analyzer, Double Channel Coagulometer** and many others. Due to their features like accurate reading, easy operation, high efficiency and longer service life, these are widely demanded across various **Hospitals, Medical Institutions and** related areas. We have developed our own business philosophies, which have helped us in consistently growing even in this competitive business domain. These policies have been framed according to the changing business scenario and the varied requirements of our esteemed clients. Due to our ethical business practices and on-time delivery schedules, we have been able to garner with us a long list of clients, who completely rely on us. All our business activities are entirely headed by our mentor, **Mr. Rakesh Kumar**, who has many years of experience with him in his respective business domain. Due to his rich industry experience, he has got an in-depth knowledge, which has become an important factor in our success. He has been guiding our team members to work with perfection, which has further motivated them and finally enabled us to enjoy a remarkable success in this domain.
