About IndoSealer

IndoSealer, a part of Cel Electro Controls, is a Faridabad, Haryana based manufacturer of industrial packaging and sealing machinery with 29 years of experience since 1997. We design, manufacture, and supply a wide range of machines and spares — band sealers, foot sealers, batch coding machines, capping machines, cup sealers, hand sealers, induction sealing machines, labeling machines, strapping machines, vacuum sealers, and genuine spare parts — serving small and mid-sized businesses across India.

Our philosophy is simple: machines that earn their keep on the floor. Every machine we build is manufactured in-house, not resold or rebadged, which means we control quality at every stage and can back what we sell with genuine spares and real after-sales support. Machines ship with official GST invoicing and are delivered pan-India, with technicians available for setup and troubleshooting.

From a single hand sealer for a home-based food business to a full horizontal band sealer line for an industrial packaging unit, we manufacture the machine and stand behind it afterward.

Why IndoSealer

In-house manufacturing	Machines built on our own Faridabad shop floor, not resold or rebadged.
Genuine spares, always in stock	Replacement parts ship fast, with video-call repair guidance.
Warranty on eligible models	Warranty depends on the model purchased — terms confirmed at the time of purchase.
Official GST invoicing	Every order ships with a proper GST invoice, HSN code and tax breakup.
Pan-India delivery	Machines delivered nationwide; local support for Faridabad/NCR customers.

Product Categories

Category	What it covers
Band Sealers	Vertical & horizontal continuous band sealers, 3kg to 25kg capacity, mild steel or stainless steel.
Batch Coding Machines	Hot ribbon and inkjet-style coding for batch numbers, MFG/EXP dates.
Capping Machines	Including crown capping and induction-compatible capping equipment.
Cup Sealers	Glass and cup sealing machines for beverage and food cup packaging.
Hand Sealers	Impulse hand sealers for low-volume or mobile sealing needs.
Induction Sealing Machines	Manual and automatic induction sealers for bottle/jar cap liners.
Labeling Machines	Machines for applying labels to packaged products.
Spare Parts	Genuine spares for every machine category — always kept in stock.
Vacuum Sealers	Vacuum packaging machines for extended shelf life.
